PRINCE2® Agile Practitioner V2

MANAGING SUCCESSFUL PROJECTS WITH PRINCE2® Agile V2

In 3 days – Learn how to apply Agile principles in a PRINCE2® project environment

The PRINCE2® Agile Practitioner course is designed for professionals working in agile environments or transitioning to agile, who need to apply and tailor PRINCE2® Agile concepts in real-world project settings. It's ideal for project managers, team leads, agile coaches, business analysts, and others seeking to integrate structured governance with agile delivery

PRINCE2® Agile Foundation is a prerequisite for the PRINCE2® Agile Practitioner level certification.

PRINCE2® Agile Practitioner V2

This course is based on the latest version of PRINCE2® Agile Practitioner, aligned with the official PeopleCert syllabus (2025).

LANGUAGE

The course, the material and the exam are in English.

COURSE OBJECTIVES

In 3 days, participants will acquire the knowledge and skills necessary to:

- Understand the agile mindset and core concepts.
- Apply the PRINCE2 Agile principles, frameworks, and practices to real-life scenarios.
- Integrate agile concepts like Scrum, Kanban, and Lean Startup into PRINCE2 governance.
- Tailor practices such as business case, organization, plans, quality, risk, and progress to an agile context.
- Understand key concepts related to agile mindset, organizational change, and team leadership.
- Utilize PRINCE2 Agile in broader contexts, including transitions to operations and continuous delivery.

TARGET AUDIENCE

- Project managers, PMO members, business analysts, and agile practitioners.
- Professionals seeking to align PRINCE2® with Agile delivery practices.
